...simple, easy, quick, hassle free.

## Schedule A

List of all Customer Media, IPE's and functions that were included in the testing procedure.

Generic JavaCard applet that can be loaded onto a contactless JavaCard V2.x.x

The following properties of the card can be set at personalisation time.

- File selection via Path, File ID or Short File ID.
- Optional secure channel support using 8 or 16 byte DES keys.
- Multiple configurations of B,S and E#

The applet can be configured as either

- **Permanent:** for use in live scheme deployment or
- **Test:** This mode permits POST developers to erase and reconfigure the card's parameters to test differing properties of their POSTs. A utility is supplied for this purpose.
