Corrigendum 3 to Version 2.1.3

This Corrigendum notice identifies the corrections to the Parts as noted below:

Corrected Versions of the Specification may be identified by the indicator Cor 3 which can be found on the title page under the ISBN Number.

Part 5

TN0252 removed the restriction of auto renew when used with stored tickets. When Clause 2.9.2.2 was implemented the note on the restriction was not removed. It should have been. This Corrigendum therefore deletes the following statement from Clause 2.9.2.2.:

Note that the Auto-Renew function cannot be combined with the Stored Ticket function.

Part 6

The heading related to Journey Record Message Code 0209 for Record Format Revision 3 was incorrectly shown numbered as 4.4.27 when it should have been 4.5.27.
